Flags will be placed in an Avenue of Flags at the entrance of each cemetery. Family members can remove a flag from the avenue and place it at the grave of the deceased veteran. Those who wish to keep the flag after Memorial Day may do so. Flags will remain out until after the traditional Memorial Day, May 30th.

The veteran's and civic organi-

zations and their cemetery responsibilities are as follows. Individuals who have questions concerning the flags or the cemeteries should call the responsible organization.

MEMORIAL DAY PROGRAM

The Memorial Day Program will be held at the First Church of the Nazarene, 1555 Flaxmill Road (behind RediMed on the bypass) on Tuesday night, May 30th, at 6:30 p.m. There will be plenty of parking and seating available.

The program will open with the invocation given by Rev. Ralph Westafer, followed by the Pledge of Allegiance to the Flag and the playing of the National Anthem. This year, Huntington County and the Huntington County Veteran's Council will honor the eighty-three Huntington County veterans who passed away in 1999. The three-part ceremony starts with the presentation of special certificates of appreciation to a surviving member of each family. The second part of the ceremony involves the Laying of Wreaths by members of the various veteran's organizations and their auxiliaries, a 21 gun salute by Roanoke's American Legion Post 160, and the sounding of Taps by Marvin Hall. After the benediction by Rev. Lynn Mefferd, the program will close with a special pictorial and musical tribute to the departed veterans.

MEMORIAL DAY MAY 29, 2000:

THE SOUND OF REVERENCE

Wherever Memorial Day is celebrated this year, those fallen in battle will be honored and remembered with the touching and melancholy notes of Taps.

The 24-note piece was developed during the Civil War by Union General Daniel Adams Butterfield. Butterfield took the melody from a French bugle signal called the tattoo. The tattoo was sounded at the end of the day, an hour before soldiers had to be back in their garrisons with lights out and fires extinguished.

As head of a brigade camped at Harrison Landing, Va., near Richmond, Butterfield recalled the tattoo music and hummed a version of it to an aide who wrote it down as music. Butterfield asked the brigade bugler, Oliver W. Norton, to play the notes. They listened; various notes were lengthened or shortened, but the melody remained the same.

The new bugle call was sounded at the end of each day thereafter. The piece was so appropriate that it was picked up by both Union and Confederate brigades.

The music was made an official bugle call after the war, but was not given the name Taps until 1874.

The first time it was played at a military funeral, it was ordered by Capt. John Tidball, head of an artillery battery. For the funeral of a cannoner killed in action, Tidball substituted taps for the traditional three rifle volleys fired over the grave so the company's position would not be revealed. Taps was played at the funeral of Confederate General Stonewall Jackson 10 months later.

It is used by the military at burial and memorial services, to accompany the lowering of the flag, and to signal the lights-out command at the end of the day. It continues to evoke memories and emotion.

The public is invited and the Veterans' Council is hoping for a large turnout for this special program. Questions should be directed to the Veterans' Service Office, 358-4863.

ATTENTION ALL BRIDES! (GROOMS, TOO)

June, the traditional month for weddings will soon be upon us and brides-to-be everywhere are in search of the perfect wedding invitation. And, when just the right announcement is locate, brides often use "Love" stamps as the postage of choice. Imagine their disappointment when, after sealing and addressing their invitations, brides discover that they have insufficient postage to mail their prized stationery.

You see, the bride (or groom, for that matter) may not realize that the once-perfect wedding invitations were too heavy, too thick, too large, too small or square and require additional postage.

Letters and cards need an additional 22-cents for each ounce or fraction of an ounce over the first ounce. Many invitations containing RSVP cards weigh over one ounce. In fact special 2-ounce

(55-cent) "Love" stamps are available for just that reason.

First Class mail weighing once ounce or less may also be subject to an 11-cent surcharge if:

- its thickness exceeds 1/4 inch;
- based on placement of the address, its length exceeds 11 1/2 inches, its height exceeds 6 1/8 inches; or
- its length divided by its height (the aspect ratio) is less than 1.3 or more than 2.5 (a square envelope).

Envelopes considered to be too small to mail measure less than 3 1/2 inches in height and 5 inches in length.

"Letter mail processed on our automated equipment moves at high speeds through a series of belts and rollers," explains Postmaster Sheryl Horst. "Although this machinery can sort a variety of letter sizes, the mail pieces must be rectangular and within minimum and maximum dimensions. Otherwise, the pieces tend to tumble forward and jam the equipment during processing, sometimes causing damage to the mail pieces. Thus, the 11-cent

KUDOS, KICKS & KARATS

LETTER TO THE EDITOR

After reading a recent edition of the local Huntington paper, I was reminded that a great asset to Huntington's downtown has been saved. I am speaking about the Huntington Theatre, which most probably would have now been sitting empty, were it not for the efforts of Mike Dinius and Jeannie Regan-Dinius. The building's fate would most likely be the same as the old Jefferson and Tivoli theaters, turned into store-fronts for business ventures.

At the time, when it appeared the Huntington would be closed forever, public sentiment seemed to favor its retention as a working theater where we could continue to see classic movies on the big screen in a large auditorium. Since its re-opening several months ago, I've attended nearly every weekend film showing, and I'm dismayed at the small number of persons in the audience. The films offered are not the first-run variety available at the new multiplex theater, but are the older classics and films — suitable for the entire family. What a relief it is to be able to see good films without the vulgarity and strong sexual situations that seem to be a necessary ingredient in most everything coming out of Hollywood these days!

I'm afraid if we don't better support the Huntington Theatre, we'll lose it. The owners deserve a reasonable return on their investment, and we as members of the county and the community should support them.

If you haven't seen films advertised that you like, create a list of your favorites, and give it to the owners. I'm sure they would make every effort to do whatever they can to bring them to the theater. Come on, Huntington county, let's enjoy some good old family entertainment together—at the Huntington Theatre!

TO THE EDITOR,

The summer months have brought many more cyclists to our streets and roads. It's great to see so many people using their bicycles for exercise or to make a trip to the library or grocery store.

I am concerned, however, with the number of cyclists I see riding against traffic, i.e., on the left side of the road. These cyclists are under the mistaken belief that riding toward traffic is safer because they can see what's coming. Statistics tell us, however, that real safety comes from traveling on the road in the same predictable manner as other road users.

While wrong-way cyclists make up only five percent of bicycle traffic, they make up 21 percent of total car-bike collisions, according to the League of American Bicyclists.

Why should cyclists RIDE RIGHT? Here are several reasons.

1. It's the law. The Vehicle Codes of all 50 states require bicyclists to ride on the right with the flow of traffic.
2. Riding on the left puts you in a place where motorists don't expect to see other vehicles when they scan the road. As a result, they may not see you, a situation that can be fatal if they drift onto the shoulder or make a right turn into a driveway, for example.
3. Wrong-way cyclists are in a head-on conflict with cyclists riding correctly. On which side should the correct-riding cyclist pass? Sometimes there's little time to decide. If a motor vehicle happens to be passing at the same time, leaving no room to swerve, the result could be a collision between cyclists with an impact speed of over 30 miles per hour.
4. The speed difference between a car and a wrong-way cyclist is much greater than for cyclists riding correctly. Any impact will, therefore, be much more serious. A motorist has more time to react to a cyclist riding with traffic and more time to plan to give the cyclist adequate room to share the road.

Let's make the summer months safe cycling months by remembering to RIDE RIGHT.

SPECIAL MEETING NOTES

In observance of Municipal Government Week, the Warren Town Council held a special meeting at Salamonie School on Thursday, May 11. Students from grades seven and eight attended parts of the meeting in order to learn how local Government works.

At 2 p.m. president Chod Boxell called the meeting to order with the Pledge to the American flag. Boxell told the students he was a member of the first Kindergarten class at Salamonie.

He asked the students if they knew how many towns and cities are in Indiana.

A request had been made to hold a clean-up day for the town. June 17 was set as free clean-up day. A dumpster will be available. Items too large to be bagged may be dumped. There can be no major appliances, hazardous waste or yard waste dumped at that time.

Maintenance at Tower Park was discussed at length. Council reported they hope to replace water fountains at the Park and said

most of the problem is caused by vandalism.

A discussion was also held concerning repairs or replacement of tennis courts at the Park. There was a possibility that funds might be available through Build Indiana Funds Grant. The cost was expected to be several thousand dollars.

Students were given an opportunity to ask questions. A student asked how often Council meets. They were informed they meet regularly every second and fourth Monday at 6:30 p.m. at the Fire Station. They also have special and executive meetings, some long and some short.

In discussing unmowed lots in town it was learned the property on Adams Street is in foreclosure.

Council had earlier been approached by a Pathfinder representative concerning water and sewer lines to a vacant lot at the corner of Twelfth Street and Huntington Avenue. Plans are to build four affordable homes for low income families.

Council agreed to issue a letter offering conditional support to the project.

Students were asked "what do you think is the roll of Town Government?"

They were also asked if they realized the cost to the Town when someone vandalizes slides, etc. at Knight Civic Center or Tower Park.

A citizen asked if there is a time limit on the Pathfinder project.

A student was concerned about why restrictions on skateboarding and roller blading in Warren. They were told the downtown area is off limits to those sports. Council explained the restrictions are necessary because of liability of the town to obtain insurance. The rule is also a common courtesy to shoppers in the downtown area.

One student posed an interesting question. Why are there no sidewalks in the country?

In answer to a question about mopeds, Officer Spittler said it is a

state law that riders must be at least 15 years of age, have an ID and wear a helmet.

Students were asked if they would use the area at the tennis courts at Tower Park if they were to be turned to skateboard and roller blade. Most responded yes. Under consideration is whether the old tennis court should be removed if a new one is constructed.

Students were told that curfew time in Warren is 10 p.m. on week nights and 12 p.m. on weekends. Students also asked if there were any rules against paint balling.

LONG TERM CARE CHOICES

United Senior Action and Aging and In-Home Services of Northeast Indiana, Inc. will hold a public meeting on Thursday, June 1st, to develop a campaign to urge the State to offer real choices to elderly and disabled citizens who need long term care. The meeting will be held at 9:00 a.m. at the Community Center, 233 W. Main Street, Fort Wayne. Free coffee and rolls will be served.

Forest Handlon, state president of United Senior Action said that the organizations want the State to stop forcing people into nursing homes to get the care they need. "\$800 million a year of our tax money is being spent to place

people in nursing homes," Handlon said, "while people are denied home care because of long waiting lists, and other options are very limited or not available at all."

Speakers for the meeting will include Paul Severance, executive director of United Senior Action and professionals from the Fort Wayne community who work with seniors and disabled.

"All citizens who are concerned about choices for people needing long term care are welcome at the meeting," Handlon said. "We have a real opportunity to change the system this year, but it will take a lot of us working together to bring that about."

MEMORIAL DAY MEETING

The recently founded camp of the Sons of Union Veterans of the Civil War - Champion Hill Camp - #17, Huntington County, Indiana will be holding a grave side service in honor and memory of all those soldiers who served in the Union armies and navies of the Civil War. The grave of Col. Sam Zent of the 13th Indiana Infantry Regt. has been selected for this years representative site for all the veterans. The ceremony will consist of words of welcome and explanation, a biography of Col. Zent, a reading of 'Decoration Day', a wreath laying, and the playing of taps followed by a benediction. After the ceremony the camp will hold a dinner meeting in the meeting room of the Ponderosa Restaurant in Huntington.

The Champion Hill Camp was formed in April for the purpose of remembering and honoring those veterans who served in the Union Army and Navy during the American Civil War. The purpose of the camp is to observe Memorial Day in an appropriate manner, to preserve and protect items, sites, artifacts, etc., that pertain to the Civil War and the Grand Army of the Republic (the original organization of the veterans them-

selves), collect photographs and other data relating to the soldiers and the war, visit historical sites, and share information.

Anyone interested in the Memorial Day observance and he SUVCW is invited to attend the ceremony.

MAY - OLDER AMERICANS MONTH

Aging and In-Home Services of Northeast Indiana, Inc. is pleased to recognize May as Older Americans Month. This years theme, "In the New Century... The Future is Aging," provides an opportunity for all of us to acknowledge aging concerns and to commend this population for their valuable contributions in today's society.

Today, one in every six Americans, or 45 million people, is 60 years of age or older. In the next 30 years, one in every four, or almost 88 million Americans will reach that milestone. Given this longevity revolution, baby boomers, who are now in their late 30s, 40s, 50s, can expect to live well into their 80s and 90s. While older adults are active members of their families and communities, others need some type of assistance, ranging from help with transportation or preparing meals, to total care.

To help the diverse needs of the growing number of older persons in the United States, the Older Americans Act of 1965 (OAA), as amended, created the U.S. Administration on Aging. (AOA) provides leadership in the federal government for the organization, coordination, and provision of supportive home and community-based services and for general-

ing new opportunities for meeting the needs of older adults and their caregivers.

Aging and In-Home Services of Northeast Indiana, Inc. is one of the sixteen area agencies on aging in Indiana. Our agency serves the needs of the elderly by providing services such as:

Case Management - Evaluates the needs of a senior and helps insure that those needs are met

Pre-Admission - Required in order to determine individual needs and level of care, and to offer choices to remain at home or in a community setting, if services are available.

Information & Assistance - Can answer general questions and begins the application process for in-home services and home-delivered meals

Nutrition - Meets the nutritional needs of seniors and persons with disabilities through the home-delivered meals program and the congregate meal sites

Senior Employment - Helps with locating jobs for seniors

AREA NEWS CONT.

SURVEY TO BE HELD

The U.S. Public Health Service is conducting the National Health and Nutrition Examination Survey, which is an ongoing study of our nation's health and nutrition status. Since 1960, these surveys have provided valuable information concerning the prevalence of major diseases, risk factors for diseases, and the relationship between nutrition status and overall health. Each year, a representative sample of about 5,000 persons is selected for the survey. This year, Huntington County is one of the counties from which this sample will be selected, with 461 people asked to participate. The survey will take place from May 23 through August 5, 2000.

Aging and In-Home Services of Northeast Indiana, Inc.—the area agency on aging in northeast Indiana—supports the National Health and Nutrition Examination Survey, which provides important information concerning the nutrition and health status of older persons. If you are asked to take part, I strongly encourage you to do so. Not only will you receive valuable medical and dental examination for free, but you will also be part of an important national effort to improve present health status and prevent future health problems.

The Public Health Services Interviewer will have a photo I.D. badge. If you have any questions, please call toll free 1-800-452-6115. If you need help with the survey, press 1.

AIR SHOW IN HUNTINGTON

The Warbirds are coming! The Warbirds are coming! Fasten your seat belts because the Kalamazoo Air Zoo is coming your way! Yes folks, the Circus is coming to Heritage Days, but we're not bringing animals - we're bringing flying Hellcats, Tigercats, Thunderbolts and the Tin Goose.

The "Traveling Warbirds Show" will be making its appearance June 17 & 18, 2000 at the Huntington Municipal Airport in Huntington, IN. The fun begins at 9:00 a.m. on Saturday, June 17, when the Ford Tri-Motor will begin selling rides. At 10:00 a.m. the Air Zoo's P47 Thunderbolt and FM-2 Wildcat (fighter aircraft are subject to change) will make an appearance at the annual Heritage Days Parade. The aircraft will do a fly over of downtown Huntington to kick off the parade. The fighters will then proceed to the airport, where they will be on display throughout the weekend, with flights on both Saturday and Sunday (weather permitting). For

a nominal fee of \$3.00 for adults and \$1.00 for children age 6 - 15, you will be able to get up close and personal to these magnificent machines. When you purchase a ticket to the "Traveling Warbirds Show" you will receive a discount coupon of equal value to visit the Kalamazoo Air Zoo. The Traveling Warbirds Show will be open from 9:00 a.m. to 6:00 p.m. on Saturday and 9:00 a.m. to 5:00 p.m. on Sunday. The Air Zoo will be featuring a special Fathers Day promotion on Sunday, June 18th all fathers will receive free admission to the Traveling Warbirds Show when accompanied by their son or daughter.

KIWANIS TO SET FLAGS

The Warren Area Kiwanis Club will be working Friday evening at all the cemeteries in Salamonie Township to put in place flags for the coming Memorial Day weekend. They are working under the direction of Tom Applegate and the Veteran's Council of Huntington County.

The flags will be at the entrances to cemeteries and visitors may take one and place it on the grave of a deceased veteran that is a relative or friend. It is suggested that the flag be placed close to a marker so that the mowers do not remove it.

Further discussion was held regarding project for the Salamonie Festival. Decisions will be made at the next meeting.

A trip to Riley Hospital was discussed and Marilyn Morrison will try to establish a date that the group might go to serve breakfast at the Ronald McDonald House in Indianapolis.

It was announced that Joan and Jerry Boyer planted flowers earlier this month at the Knight Civic Center. The Center Board provided the floral plantings.

Officers were elected. New officers will begin their term October 1. Those officers are: President Jeff Rice, Vice President Mark Vickrey, and Treasurer Jerry Boyer. The office of Secretary will be decided at the next director's meeting.

The sign-up sheet for working the concession stand below the hill was passed. Kiwanis members are volunteering their time to operate this refreshment booth.

During the most recent Kiwanis meeting, members were reminded that scholarship awards will be made at the next meeting, June 3rd, Saturday morning. This meeting will be held at Joan and Jerry Boyer's new home just north of Warren on State Road 5. A breakfast buffet will be served with the meeting beginning immediately

afterward.
