KUDOS, KICKS & KARATS

DEAR EDITOR

Breast cancer: Two of the scariest words a woman will ever hear. When I heard those words from my doctor in June of 2006, my world felt like it was about to come crashing down.

Without the support of my family and my faith, I don't think I would have been able to cope. I found hope for the future when I joined the American Cancer Society' Making Strides Against Breast Cancer walk. I wanted to help raise awareness and funds to support the fight against breast cancer. I have met many breast cancer survivors in all stages of treatment, many of which have gone on to live long and fulfilling lives.

I have been cancer free for three years. When I talk to survivors that have been free of this disease for 15 and 20 years, it gives me hope that I too will have many more years ahead. That is why I feel so strongly about walking in Making Strides Against Breast Cancer walk.

The chance of a woman developing invasive breast cancer at some time in her life is about 1 in 8 or 12 percent. In 2009, an estimated 192,370 women will be diagnosed with breast cancer and more than 40,000 will die from the disease. I feel very fortunate and blessed to be a survivor of this dreaded disease, and I walk because I have 3 daughters, a daughter-in-law, and 3 granddaughters. It is my greatest hope that they never have to hear the words "you have breast cancer."

On Saturday, October 3, 2009, I plan to walk beside my daughters, friends, colleagues, and fellow survivors at the Making Strides Against Breast Cancer walk at Headwaters Park East. I urge everyone in Northeast Indiana to join our community as we make strides toward a future where breast cancer is no longer a life-threatening disease. To get involved or for more information, contact the American Cancer Society at 260-471-3911 or visit www.cancer.org/stridesonline.

Sincerely,

Mary Esslinger

How MUCH BETTER IS WORSE?

by V. Neil Wyrick

Several years ago, a man 75 years of age was killed in an accident. His wife in her bereavement kept saying over and over again, "You know he was never sick a whole day in his life." However, when they performed an autopsy, they found he had hardening of the arteries, cirrhosis of the liver, a tubercular lung and a chronic kidney condition; any of which was so bad they could have killed him at a moments notice.

It is that magic word attitude again. It is the difference between the hypochondriac who feeds his fears while enjoying the meal and the person who says, "So I am a little sick...so I hurt a little...I'm walking aren't I?"

In 1915, Ty Cobb stole 96 bases. Seven years later, in 1922, Max Carey of the Pittsburg Pirates stole 51. Was then Ty Cobb almost

MY TOWN and Yours

BY DENNIS STROUD

Nov. 1935, the Sanitary Market, Floyd Turner proprietor, was robbed. \$214.50 in cash was taken by two unmasked men, shortly before 11:00 on a Saturday night. After emptying the cash register the men backed out of the store and ran to an automobile, whose motor was running and rode away. The last anyone saw them is when they turned on Second Street and headed for the rail road bridge.

When the two men entered the store, a man with a gun ordered Mr. Turner, his wife and clerks to the back of the store. The other man went to the cash register. At that time Mrs. Frank Minnich enter the store. The man on guard was standing so close to the door that he was shoved aside when she opened

the door. While this was happening Mr. Turner moved to the rear door, went out, and ran to the I.G.A. store to summon help. The clerks in the I.G.A. store was close to the front and was able to get the license number but the state police discovered the plates were stolen.

The men were seen at a number of places during the half hour before the robbery. They bought coffee at Bert Denton's eating stand. Edward Brown saw the gun the one man was carrying. Brown crossed the street to the filling station he and his brother owned and told his brother a holdup might be happening. The men were seen in the I.G.A. store and the Kroger store studying the situation and found the Sanitary best suited their purpose.

In Nov. 1937, James Dalhover was captured in an operation by the F.B.I. in Bangor, Maine. His companions in crime, Alford Brady and Clarence Shaeffer, were killed in the gun fight which occurred. State officer Robert Clevenger, son of Mr. and Mrs. Ty Clevenger of Warren, was a member of the state police guard, who guarded Dalhover during the trial. Mr. Clevenger had several opportunities to talk confidentially with the gangster during the trial. During one of

those talks Dalhover freely admitted his part in the Warren holdup and described in detail how the robbery was accomplished. Dalhover was on trial for the murder of a state policeman in a bank holdup in Goodland, Indiana.

Dalhover was allegedly the triggerman and said he was the one who stood by the door with the gun. Brady cleaned out the cash register and Shaeffer was keeping the motor running in the car. They were known as the Brady gang.

TOOTH TIPS

By: Dr. Kevin J DeaKyne DDS, PC

Oral Health is Important!!

Oral health means more than just an attractive smile. Poor oral health and untreated oral diseases and conditions can have a significant impact on quality of life. And in many cases, the condition of the mouth mirrors the condition of the body as a whole. Recent reports indicate a relationship between periodontal (gum) disease and stroke, heart disease, and pre-term low-birth weight babies. Likewise, more than 90 percent of all systemic diseases have oral manifestations, meaning your dentist may be the first health care provider to diagnose the problem.

What problems can poor oral health cause?

According to the recently released Surgeon General's report on oral health in American, a large percentage of the population suffers from reduced quality of life due to oral and facial pain. This pain is largely due to infections of the gums that support the teeth and can lead to tooth loss. Some type of the periodontal disease or gingivitis affects more than 75 percent of the population.

Recent reports show that infections in the mouth can affect major organs. One example is bacterial endocarditis, a condition in which the lining of the heart and heart valves become inflamed. Poor mouth care also can contribute to oral cancer, which now takes more lives annually than cervical or skin cancer.

In addition, poor oral health affects the digestive process, which begins with physical and chemical activities in the mouth. Problems here can lead to intestinal failure, Irritable Bowel Syndrome and other problems.

What symptoms from other diseases show up in the mouth?

Mouth tissues reflect symptoms of other problems. In addition, many diseases can be diagnosed in their early stages through an oral examination. Swollen gums, mouth ulcers, dry mouth and/or excessive gum problems may characterize these diseases. Some of these diseases include diabetes, leukemia, cancer, heart disease and kidney disease.

What can I do?

Seeing a dentist every six months can help identify diseases in their early stages. It is also important to provide your dentist with a complete medical/dental history and to inform him or her of any recent problems, even if they seem unrelated to your mouth.

Warren's Red Hatters, the "Real Elegant Dames" were the guests at Joyce Shepherd's delightful tea party recently. Her lovely villa provided the enjoyable ambience for the following guests: Dianna Bradford, Martha Buzzard, Freddie Couch, Shirley Combs, Frankie Eades, Jane Garrison, Lilly Nutter, Mary Palmer and Becky Parker. Plans were discussed for several exciting events we've been invited to attend. We shared meaningful memories of our fun events as recorded in our FAT, treasured scrapbook. Had a fun time drawing "gifts" from a loaded grab bag. It gets "gooder" each time we meet.

twice as good as Carey? No, he was just willing to go for it more often. Actually, Max Carey's percentage of stolen bases was much higher. However, Cobb had a go-for-it attitude while Carey had a play it safe attitude. And the same was true of Babe Ruth. He hit 851 home runs during his magnificent career and was known as the Home Run King, but he struck out 1330 times. However, he didn't concentrate on his strike outs, only on his home runs. And so did his fans.

These athletes tried to learn from their failure. They did not back away from the challenges even if they offered more failure than successes. They lived with their eyes on the pluses rather than on the minutes.

Or, as Ben Franklin answered when asked why he came to the Constitutional Convention in Philadelphia when he could have stayed at home because of illness, "If I stayed at home I would just be sick and tired, so I decided to be sick and tired in Independence Hall."

One day in his 80th year, John Quincy Adams while walking down the street chanced upon an old acquaintance, "Good morning," said his friend, "And how are you this morning?"

Our sixth President replied, "John Quincy Adams himself is quite well, thank you. But the house in which he lives at present is becoming dilapidated. It is tottering upon its foundation and the seasons have nearly destroyed it. Its roof is pretty well worn out. Its walls are much shattered and it trembles with every wind. The old tenement is becoming almost uninhabitable and I think John Quincy Adams will have to

move out of it soon. But he, himself is quite well, quite well, indeed."

In the storehouse of your mind, in the secret chambers of your heart, keep your soul alive and well.

Be like the violinist who, when his string broke in the middle of a concert, transposed and kept on playing. Be like James Whistler, the famous painter, who never meant to be a painter, but when he flunked out of West Point just switched gears. Be like Sir Walter Raleigh the great novelist who admitted the brilliant poetry of Lord Byron was better and simply seeking another goal became renown for the tales he wound.

Longfellow said it: "Not in the clamor of the crowded street, Not in the shouts and plaudits of the throne

But in ourselves are triumph and defeat."

The worse can be made better and the better can be made worse. It all depends on whether we concentrate on remembering all our times of suffering rather than our times of joy or pursue the bringing up time and time again all our failures rather than our triumphs. It is such a foolishness to concentrate on all the times we have been hated while forgetting all the times we have been loved.

It is easy to claim our pains, frustrations, irritations and heartaches are worse than those of anyone else. To find the worst and make it more so. To be a poor mathematician and never add up life's blessings. We've all done it.

But it makes so much more sense and rid ourselves of nonsense if we take the crab apples of life and make jelly rather than each day just get

more crabby. Some mine silver from the clouds in their lives and therefore daily grow richer. Some tarnish the silver with perpetual tears.

Yes, better can be made worse. Worse can be made better. It is always up to us.
