**HAPPY FATHER'S DAY:**

**HOW TO BE A MEMORABLE DAD**

Though we appreciate our fathers throughout the year, Father's Day gives us the opportunity to thank them and show our appreciation for all they do for us.

Having made that important point, we offer dads working with us a few ideas suggested by Joe Kita, author of *The Wisdom of Our Fathers* (Rodale).

Teach kids to be curious. Check out a flower or how a lawn mower and a toaster work.

Be generous with your love and your time. It will help them develop empathy and a concern for other people.

Admit when you're wrong. Show them it's OK not to be perfect.

Show how to accept failure. If the kite crashes or the game won't work, emphasize that it's important to try new things.

Be spontaneous. Show that you don't always have to follow a plan. Let them know it's OK to turn a different direction.

Emphasize good health by example. Exercise, (let them exercise with you), eat well, and live a moral life.

Cultivate spirituality. Attend church or synagogue, meditate on the wonders of nature.

**STEPDADS ARE DOING A GOOD JOB**

Since the number of stepfamilies appears to be growing with each passing year, researchers at the University of Maryland in College Park, wanted to know if a stepfather can be as good a parent as a biological dad. They found that the answer is yes.

When they interviewed stepfathers on how they treated their biological children and their stepchildren (up to age 12), the answers were very positive. Researchers inquired about qualities they used to measure the father's involvement.

When it came to how much affection these dads showed the kids, how much they praised them, and how much time they spent with them, they found that fathers were just as focused on their stepchildren as their biological children.

The doctors conclude that stepfathers can be very good dads.

**KIDS TURN ON TO INSTANT MESSAGING**

More young people are using Internet instant messaging to keep in touch with friends. They talk to several people at once.

The short messages fly back and forth on the computer screen as preteens and teens use the Internet to visit. According to one survey, 77 percent of 9- to 12-year-olds have Internet access. That number rises to 83 percent for 12- to 17-year-olds.

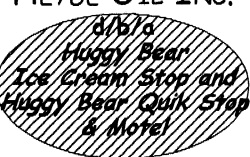

Experts say parents need to keep an eye on them. Kids don't always know who is talking back when they chat on line. They should be warned "not to talk to strangers" on line as well as in person. Parents should make it a point to know what abbreviations mean, like "bbfn" (bye-bye for now). At Cyberpatrol, a parental software company, they say parents should ask what an unknown acronym means. And they suggest that kids use a code or salutation that only friends know. They should be warned not to give out phone numbers or personal information on line.

Abbreviations for cyber-chat include:

<g>: Ends a message with a grin. <rofl>: Rolling on the floor laughing.  
 <afk>: Away from keyboard. <bfm>: Bye for now.  
 <brb>: Be right back. <cul8r>: See you later.  
 <eod>: End of discussion. <grd>: Grinning, running & ducking.  
 <hand>: Have a nice day. <irl>: In real life.  
 <kwim>: Know what I mean? <lol>: Laughing out loud.  
 <obtw>: Oh, by the way.  
 <pebcak>: Problem exists between chair and keyboard.

### PAGEANT ANNOUNCED

The Miss Wells County Pageant is open to all single women in Wells County, ages 16 - 20. The local contest resembles the Indiana State Fair Queen Contest in which the Miss Wells County Contest is a preliminary.

There are three areas of competition:

The professional wear competition reflects the image of today's active women in a professional and a social role.

The interview represents the business side of a woman's life-interacting with other people in the working world, knowing how to present herself when applying for a job, and how to carry on an interesting discussion. Women need this experience in modern society.

The evening gown competition explores the more romantic side of life. Expression of the true personality is necessary even in formal situations.

Workshops to explain the contest and to answer participants questions will be held July 6th and 14th. It is required that the participant or a friend or relative attend the workshops to gather information.

The Miss Wells County Contest is organized by the Miss Wells County Committee through the Extension Office. The event is sponsored by numerous donors who make it possible for these awards: Miss Wells County, \$400; 1st runner up, \$300; 2nd runner up, \$200; and 3rd runner up, \$100.

All contestants receive a gift and a photograph. In addition, a Miss Congeniality Award is presented each year. Each contestant must be sponsored by a merchant, club, or organization who will contribute \$80 to defray expenses of the contest. (This covers the cost of a meal, gift, photo, flowers, and judges.) Also, the contestant must furnish her own transportation (car and driver) for

the 4-H Fair Parade.

Applications for the pageant are due July 6th at the Wells County Extension Office. Additional information and applications may be obtained from Chairperson Joye Fuess, 260-639-0383 or the Wells County Office of the Purdue Cooperative Extension Service, 824-6412, located at the 4-H Park in Bluffton.

### RABBIT FUN SHOW

The 4-H Rabbit Committee will host a Rabbit Fun Show on Thursday, June 17, 7 PM at the Wells County 4-H Park Rabbit / Poultry Building in Bluffton.

Members are encouraged to bring a rabbit for the fun show so that they may practice their showmanship skills.

Check-in will be 6 - 6:30 PM and show at 7 PM.

The 4-H Rabbit Identification Night will be June 28, 7 - 9 PM at the 4-H Park Cookhouse Patio in Bluffton. Members may bring their rabbit for tattoos if needed.

For more information, contact Marcia Day, 638-4174 or Rick Hipsher, 638-4204.

The Town of Warren has completed the 2004 Consumer Confidence Report for the Municipal Water Utility. The results show that once again the Municipal Water Utility did not have any violations on any water samples tested, meaning that Municipal Water Utility drinking water is safe and free from harmful contamination. A consumer confidence report containing an outline of the most recent testing will be mailed to all of the Town's water customers by July 1, 2004. A copy will also be on file at Town Hall. **ENRICHING COMMUNITY**

Many of our local 8 to 10 year olds will have a new favorite book very soon. The Way To Go, a beautifully illustrated volume expressive of moral values, is being made available in certain local schools as a gift to 8 to 10 year olds by local business leaders who are concerned about the future of our children.

A copy of the volume goes home with the child to become his or her very own. Printed in this book is a Parent Guide explaining the values covered in the book along with suggested topics for family discussions.

Without the support of local community leaders this program would not be possible.

The schools involved are: Eastbrook/Washington E/S and Van Buren E/S. The sponsors are: HEMMICK HARDWARE, AREN'S COUNTRY BLOOMERS, and THE MEATING PLACE.

## TOOTH TIPS

**By: Dr. Kevin J DeaKyne DDS, PC**  
**Q. SHOULD WOMEN BE MORE CONCERNED ABOUT GUM DISEASE??**

A. As a woman goes through different phases of her life there is the potential for a greater risk or periodontal (gum) disease. From the onset, through teenage years, pregnancy and menopause, a woman's hormone changes can affect her oral health. The reason is that hormones alter the bacteria (plaque) that make their home in the mouth. Irritants or changes in the bacteria can make the gums swell and bleed (ex. pregnancy gingivitis). As the disease progresses, this can lead to further breakdown, pocket formation and the starting place for periodontal disease. This can lead to bone loss, which can severely loosen teeth, cause pain, and eventually tooth loss. Other contributions to gum disease are smoking and diabetes. Gum disease is preventable. However, the "old wives tale" of losing a tooth for every pregnancy or the baby took all the calcium out of my teeth is simply not true. Regular brushing, flossing and trips to the dentist can reduce your chances of getting gum disease. Another concern is crash dieting. Crash diets can affect the production of saliva in your mouth. Saliva is vital to your mouth's ability to cleanse itself. If you are on a diet or thinking about it, see your doctor and dentist to make sure that your physical well being or oral health are not being compromised.
