## Kid's Klub RETURNS

Hey Kids, Moms and Dads!! Kid's Klub "All Stars for Jesus" returns September 6 at 6:30 at Warren United Methodist Church! We will be having a special kick-off party to start the new season. Union Church Puppet Ministry will do a show called "Jesus Is the Way."

Kid's four years old through sixth grade are welcome to join us for snacks, Bible lesson, music, games and crafts.

Kid's Klub will meet every Wednesday evening from 6:30 - 7:30. Warren UMC is located at the corner of Third and Main Streets in downtown Warren.

## PULSE PRODUCTIONS

Don't forget to call for your reservations for "Once Upon A Mattress" to be presented August 25, 26, 31, September 1, 2 and 7-9.

Once Upon A Mattress is a hilarious story based on the childhood fairy tale the Princess and the Pea. The cast features quite a few local residents and actors from Huntington, Fort Wayne, Muncie and LaFountain.

Call 219/375-7017 for more information or ticket reservations. Tickets can be purchased at the door before the performance, on a first come first served basis.

## NOT BABYSITTER'S

Van Buren is a quiet and proud community located in the Northeast corner of Grant County.

Recently the Town Park got a new facelift, with new playground equipment, picnic tables and benches. The total cost amounted to several thousand dollars. Young and old will benefit from the project. On Saturday, August 12, the new equipment was dedicated during the annual Popcorn Festival.

The new look at the Park enhances the beauty of the town. This Park, according to reports, was a community project from the very beginning, with young and old of the community donating man hours and conducting money making projects.

But, during a discussion of the Park at a recent Council meeting it was noted that some equipment is being abused.

Local Police Officers were asked to patrol on foot during the evening, making sure youth leave

the area by curfew time. Officers reported that youth usually know when they leave the area, and even though the youth had been asked to leave, they may return to the Park when the Officer is out of sight.

Police Officers are hired to protect the Town and the safety of children.

There are parents who believe their kids are being picked on if they are asked to leave the Park.

Parents could help the situation if they tell their kids to be home by a certain time, make it a rule and stick to their decision.

Officer are hired to uphold the law, which does not include free babysitting.

Parents who truly care know where their kids are when its curfew time.

## GUIDANCE AVAILABLE

The guidance office at Huntington North High School will have extra hours every Tuesday from 3:00 p.m. to 6:00 p.m. One of the counselors will be available during those hours to talk with parents and students. Please call 356-6104 extension 1021 to reach the guidance counselor on duty. You may also stop by the guidance office during those hours on Tuesday. Appointments are not necessary.

## NO LUNCH AT THE POST OFFICE

Due to the benefits of automation and an increase in correctly addressed mail (use of PO Box addresses) we are able to process mail with fewer clerk hours. Therefore the Warren Post Office will no longer be closed from 1 p.m. - 2 p.m., effective Sept. 5.

In addition, a two week survey of window service indicates there is no need for counter service after 5:00 p.m.

Effective September 5, 2000 (day after Labor Day) service counter hours at the Warren Post Office will be:

8:30 a.m. - 5:00 p.m. Monday-Friday (dispatch will still be at 4:00)

8:30 a.m. - 11:00 a.m. Saturday (no change from current hours)

## FAS AWARENESS DAY

Local WCTU participates as bells ring around the world to warn of the dangers of alcohol use.

The "White Ribbon Women" of the local Woman's Christian Temperance Union will be ringing bells on September 9, 2000 at 9:09 a.m. to bring awareness of the dangers of drinking alcohol during pregnancy and the desperate plight of individuals with Fetal Alcohol Syndrome (FAS) and their families. The "FAS Bell Concordance" will mark the beginning of the WCTU's yearlong project to warn the public - Drinking ANY amount of alcohol during pregnancy places the baby at Risk for birth defects such as Fetal Alcohol Syndrome.

Fetal Alcohol Syndrome is the leading cause of mental retardation and is 100% preventable.

FAS Day was developed by FASWORLD. FAS Day was first observed on September 9, 1999. At 9:09 a.m., volunteers around the world marked the beginning of "FAS Day" by ringing bells. The bell ringing was named "The FAS Bell Concordance." Ringing of bells was chosen as a way to bring awareness to FAS because historically bells are often associated with announcements, warnings and alarms.

On Sept. 9, 1999, events were held in communities across Canada and the U.S., and in South Africa, New Zealand, Germany, and Sweden. There were also volunteers in Australia and Italy.

## ROANOKE FALL FESTIVAL

The 47th annual Roanoke Fall Festival is set for Sept 8-9 featuring games, food, contests, a parade, a demolition derby, crafts and entertainment.

Roanoke's is the oldest community festival in Huntington County. The majority of events will be held at the Roanoke Park, while some will be in the downtown area.

The One Pitch Co-ed Softball tourney kicks off activities Thursday, Sept. 7, at the park, and continues Friday night and Saturday.

Activities Friday evening begin with the Antique Tractor Parade downtown, and the Antique Tractor Pull to follow at the park. The Hardwood Shiners perform at the park, followed by the Indiana Two Steppers/Country Mavericks at

7:15. After the announcement of the Prince and Princess, the popular 50s-60s group Spike and the Bulldogs will perform from 8:15 until 10:30 p.m.

Saturday begins with a pancake and sausage breakfast from 7-10 a.m. at Seminary United Methodist Church, with a 5-mile run at 7:30 a.m. and a one-mile Fun Run an hour later, both starting at Wells Fargo Bank on Main Street. A craft show runs all day with vendors set up along First Street, and a co-ed volleyball tourney begins at Roanoke School at 8 a.m.

Children's games and events start at 9:30 a.m. and run through much of the afternoon. Some of those include a Diaper Derby, Peanut Scramble, Three Legged Race, Kids Tractor Pull, Needle in a Haystack and more. At 11 a.m. the Allen County 4-H Llama Lovers will have an exhibit of animals at the park until 3 p.m., and the Sound Proof Mime Ministry will perform at 1 p.m.

The Annual Fall Festival Parade steps off on Main Street at 4 p.m. The Kiwanis Ducky Run is set for 5:45 p.m. and the annual Cake Auction will immediately follow.

Gates open at 6 p.m. Saturday for the popular Demolition Derby that begins an hour later. The event draws entries and spectators from throughout northeast Indiana.

Entertainment Saturday evening includes the Wells Spring Fiddlers at 6, Apple Jack Cloggers at 7, and the Paula Jo Taylor Band at 8:30 p.m.

Continuous events include games, food booths, antique tractor and farm equipment display, wagon rides, and more. Some of the continuous games include a Moon Walk, Bungee Run, Velcro Wall, Basketball Shoot, Obstacle Course, primitive games, straw maze, Kids' Car Train, face painting, and many others.

Proceeds from the Fall Festival go to community projects.

For more information, contact Sheila Rethlake at 672-8457, or John Klingenberg, publicity chairman, at 672-8765.

## OUTLOOK MEETING

The speaker at this years Grant County outlook meeting will be Howard Doster. Many farmers have heard Dr. Doster talk and know that he will have an interesting presentation. The meeting will

be on Wednesday, September 13 at 7:30 A.M. at the Jim Dandy restaurant in Marion.

The outlook meeting is a very informative meeting where Purdue University will give their forecast for the next year. Farmers and anyone interested in agriculture finance or commodity marketing should attend this meeting.

The meeting will start at 7:30 A.M. with breakfast and then the outlook presentation and questions and answers. Reservations are needed to plan the meal and handouts. Please call the Extension Service office at 765/668-8871 ext. 413 to register.

## PURDUE SWINE DAY

The Purdue Swine Day will be on August 31 at the Purdue University Animal Science Research Center near Montmorenci, Indiana. The day will start at 8:00 A.M. with registration and end around 2:30 P.M. Lunch will be available at the research facility. The morning program will include several research reports and the afternoon program will be a panel of Indiana pork producers discussing marketing issues. Many commercial exhibits on swine housing, equipment, genetics, nutrition, and animal health products will be set up during the program.

## AGRONOMY FIELD DAY

The 50th annual Purdue Agronomy Field Day will be September 7th. Participants can learn about the latest developments in corn, soybeans, forages and sorghum research. The event runs from 7:30 AM to 3 PM. Four tours highlighting crop research will be conducted.

On the crop biotechnology tour, participants can observe how genetic tools improve plants. They also can look at underground activity, soil microbial life, soybean rot and earthworm management in the tillage area. The soil fertility and plant nutrition tour will focus on calcium and magnesium rations, new soybean inoculants, and nitrate issues. During the site specific management tour, participants will learn about soil electrical conductivity mapping. The pest management tour will include soybean cyst nematode issues, new ways to control old pests, rootworm problems in soybeans

## KUDOS, KICKS & KARATS

### THANK YOU

It is with grateful appreciation that I say thank you to my family, neighbors and friends who made my 85<sup>th</sup> birthday such a precious memory.

Thank you for the cards, flowers, calls and special prayers sent my way.

Thank you, Lord, for giving me 85 years of life to enjoy the pleasure of my Friends.

Irene Treat

### A BIG THANK YOU ...

... should go to your local Citizens Telephone Co. for putting out such a nice directory. We come from a small town nearby and our phone book doesn't even come close in comparison to Warren's. They have put in so much information and easy to find. I hope the people of the Warren area will thank Citizen's for all the thought and work they have put in their local phone directory.

Thank You from A Neighbor

### THANK YOU

McKenna Cady wishes to thank everyone for their prayers and support during her surgery and recovery time.

Thanks to everyone.

### YOU COULD BE A HERO: GIVE BLOOD

Imagine the thrill and satisfaction of saving another person's life. You carry someone from a burning building. Or whisk a child from the path of a speeding car. Certainly, you would be a hero.

But you can be a hero without risking your own life - just by giving blood. Actually, you could save several lives by giving blood just once. A single unit of blood can be separated into several components to be used by people whose lives depend on receiving them.

To qualify for this heroism, you must be healthy, at least 17 years old, and weigh 110 pounds or more.

Giving blood is a safe procedure. It is not possible to contract HIV, the virus that causes AIDS, by donating blood. The American Red Cross emphasizes the fact that each needle used in the procedure is sterile and is disposed of after a single use.

People in good health can donate a unit of blood as often as every eight weeks. Some states may further limit the number and/or frequency of donations in a 12-month period.

You can even donate blood to yourself. When a blood transfusion is anticipated, such as for an upcoming surgery, you can donate blood and designate it for your own use. It's called an autologous blood donation.

Besides, when you give blood you get a nice paid break from your job; a sympathetic nurse takes care of you and pats your forehead; you get a nice nap when the procedure is over, along with some delicious drinks and maybe a cookie or two.

There is probably a simpler way to get coffee and cookies, but no other way will make you feel so heroic or so satisfied.

### 14 YEARS AGO - AUGUST 7, 1986

There would be no Warren Weekly September 3 (1986) for vacation. The office was to be set up in the building commonly known as the Kriegbaum Building on North Wayne Street.

Seven month old, Jacob G. Rudicel, son of Jack and Marty Rudicel, Warren, was second place winner in the Van Buren Popcorn Festival Baby Parade.

The congregation would hold services in the sanctuary of the Warren United Methodist Church which had been repaired as a result of a fire on May 31, 1986.

and soybean corn rootworm thresholds.

The Purdue Agronomy Research Center is located on US 52, seven miles northwest of the Purdue campus. Lunch will be served from 11 AM to 1 PM. Antique tractors and trucks will be on display. Attendees can earn continuing education credits. The field day is free and registration will take place at the beginning of the tours. Parking is available at the front of the center.

### VP OF PATIENT CARE

Timm Reed has been named Vice President of Patient Care at Huntington Memorial Hospital. Reed has a degree in respiratory therapy and nursing, as well as Hospital Administration. Reed comes to HMH from Parkview Hospital where he served as a Director of Nursing.

"I enjoy the atmosphere of a community hospital and am looking forward to working with staff, physicians, and the community in the future" reported Reed.

In filling this position the new HMH leadership team is now complete. Darlene Garrett was named Chief Operating Officer in October 1999, and Tim Lessing, Vice President of Finance, has been an employee at HMH for the past 2 years. Prior to that he was a member of the financial team for 4 years at Parkview Hospital in Fort Wayne.

"Having the new leadership team in place will permit HMH to maintain our services to the Huntington community" reported Garrett. "We want to build on the excellent foundation established by our predecessors over the past years."

The Parkview Health System has organized its three community hospitals, HMH, Whitley Memorial in Columbia City, and Parkview Noble in Kendallville, under the direction of John Hatcher. As President of the Community Hospitals in Parkview Health System, Hatcher is responsible for overall direction and guidance of these three facilities. Each hospital then has a Chief Operating Officer.

"I find that the issues and activities of the three hospitals are common, and that collaborative interactions with management and staffs from each community hospital provide for better decision making and service development" expressed Hatcher. "The ability to share information across the community hospitals provides a broader range of viewpoints and experiences which will lead to better service to area residents."

The leadership team is a part of

the HMH Speakers Bureau and may be contacted through the Community Relations Department.

### COUNCIL NOTES

The Warren Town Council met on Monday evening, August 14 at the local Fire Station. The meeting was conducted by president Chod Boxell and opened with the Pledge to the American Flag.

Approval was given to the minutes of the July 26 meeting as submitted.

During citizens response, questions were asked about ambulance services in Huntington County. It appeared there are a number of issues to be resolved before the real status of County Ambulances is known, and the number of hours each will be in service.

A citizen brought to Council's attention that if a new business is established at the corner of Second and Wayne Streets there could be a sewage problem. It was noted that the sewer system crossed three properties on that block.

A Waiver was granted July 26, 2000 in order for a Dollar General Store to locate at the corner of Twelfth Street and Huntington Avenue.

It was indicated, as requested after review of plans by the Town's engineer, in the area of the newly constructed Medical Center have been added by the United Methodist Memorial Home engineer.

Approval is still needed for utility easements for the Professional Business Park.

The INDOT-SR5 project is delayed as Butler Fairman Seferet will be assigning another engineer to the project due to a resignation.

Council voted to rent town employees clothing from Van Dine Crotty due to cheaper prices and possible better service.

Council directed Marilyn Morrison to get additional quotes from Service Supply Company for new bleachers at Tower Park. Under discussion is replacement of current bleachers with aluminum four tier bleachers.

Council voted to pay the cost to have a PERF survey completed. The step is necessary to joining the Public Employees Retirement Fund operated by the State of Indiana.

A letter from Schnelker Engineering indicated bids can be taken on or before December 22 for a Water Treatment Plant at Tower Park. Cost of the project is expected to be \$500,000. The step would removed iron from the

system.

Mike Haggerty, owner of Warren Health and Fitness, located at Knight Civic Center, offered memberships for town employees. A check of the number of people involved was expected to be made before a decision is made.

Council signed a support letter for local law enforcement officers to participate in Operation Pull-Over. The next pull-over is expected Labor Day weekend.

The Town Janitor has resigned the position. There is no replacement to date.

A request was granted for sewer connection at SR5 and 900S.

The town wide clean-up was reported to be a success, with seven dumpsters filled.

Clerk-Treasurer Marilyn Morrison announced the Budget had been submitted for publication, and the July financial report was given.

Darrel Bice reported from the Utility Department. Recent projects included: two new fire hydrants installed; rerouted a waterline on Huntington Avenue; there had been problems with the water wells and one meter had been replaced; a street closing will be necessary for a street project at the intersection of Third and Main Streets; water meters continue to be installed and changes made; and plans are to finish a project on 1000S.

Repairs to well number one are expected to exceed \$12,000. Peerlis Midwest will be doing the work which includes installation of a new meter.

An Executive meeting was set for August 23 at 6:30 p.m. to discuss personnel issues not related to the budget process.

October 31 is the deadline for a Grant application for a street sweeper and leaf vacuum.

### A NEW TWIST ON A SCHOOL LUNCH STAPLE

(NAPS)-There may be good news for the growing number of children who are allergic to a school lunch classic. While many of us grew up toting a PB&J-that's peanut butter and jelly-sandwich to school, times are changing.

Experts report the number of

children with a potentially dangerous hazardous allergy to peanuts has increased significantly since 1981.

For some, an allergic reaction to peanuts can cause wheezing or hives. In very rare instances, it can even be life threatening.

Some parents have responded to this challenge by offering their children an alternative-a type of butter made from soynuts.

According to the Food and Drug Administration, increased intake of soy related products may be linked to a number of benefits, such as lowered cholesterol and increased prevention of diabetes.

Curtis Roettig, co-owner of the SoyNut Butter Company, believes their product-I.M. Healthy SoyNut Butter-offers parents and children other benefits as well.

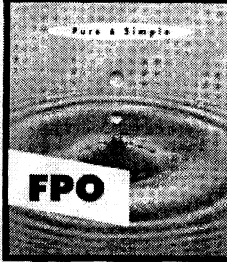

Says Roettig, "Soynut butter looks and tastes like regular peanut butter. In blind taste tests, children usually prefer it over peanut butter. As a parent, you can help your food-allergic child feel less self-conscious."

### SUPPLEMENTS MAY OFFER EARLY PROTECTION FROM OSTEOPOROSIS

(NAPS)-The sooner, the better. That advice may help many women prevent, or reduce the onset of osteoporosis later in life. A recent study suggests that many women can benefit significantly from early treatment of osteoporosis, and that a widely available over-the-counter dietary supplement may help.

"The results suggest that women begin experiencing bone loss earlier than previously believed, even before menopause, during the perimenopausal stage," says Lila Nachtigall, MD, a leading authority on women's health and professor of Obstetrics & Gynecology at New York University School of Medicine.

Perimenopause refers to the gradual period of change leading up to the final onset of menopause. During this stage, estrogen production slows and the ovaries stop the regular production of eggs. As estrogen levels decline, trabecular bone-the inner bone layer-is also lost.

The over-the-counter supplement, called Promensil, is made from plant estrogens (or isoflavones) extracted from red clover, and each tablet is standardized to deliver a proprietary ratio of the four important plant estrogens most commonly found in nature. The specific ratio of plant estrogens in Promensil appears to help provide protection against trabecular bone loss.

"Hormone replacement therapy is frequently prescribed to women to help prevent osteoporosis, but generally, women do not take it until after menopause," explains Dr. Nachtigall. "Promensil is a safe, natural and convenient option, and has been clinically proven effective not only for reducing symptoms of menopause-

such as hot flashes-but now also for helping to reduce bone loss." The National Osteoporosis Foundation recommends that women continue to exercise and include 1,200 mg of calcium each day in their diet.

Natural plant estrogens are also found in foods such as soy and chick peas, which are known to help reduce the effects of menopause. And while research shows that American women do not consume enough of these foods, one tablet of Promensil is equal to consuming one cup of soy milk and five cups of chick peas a day. Promensil is a natural product, and is safe and effective with no known side effects.

Promensil is widely available throughout the United States in health food retail stores and pharmacies. Health practitioner or patient inquiries can be directed to a toll-free number: 1-877-4-MIDLIFE or to the website at [www.promensil.com](http://www.promensil.com).

### SHRINERS OPEN NEW WORLDS FOR SPECIAL NEEDS KIDS

(NAPS)-When he was six years old, Francisco lost his voice and mobility to meningitis. For the next six years, he had communicated with his parents, brother and sister solely with eye gaze. Francisco's family would ask him yes-or-no questions and he would answer "yes" by looking up at the ceiling, or "no" by looking straight ahead.

Recently, members of the Shriners Car Club in Seattle donated a portable computer to Francisco. With the support of the Portland Shriners Hospital for Children, he is learning to use the computer to speak the words his mind is thinking.

During therapy sessions at the hospital, Francisco reclines in his

wheelchair, looking at the computer on a table in front of him. His hands jut to his sides and his face trembles. A large, green button is positioned in front of Francisco's left foot.

The computer displays four fast-food outlet names and logos. Starting with Pizza Hut, the logos darken for five-second intervals. When the computer highlights the McDonald's logo, Francisco twitches his left foot to select it. Click. Then a McDonald's menu pops up on the screen. Small boxes on the screen display pictures and names of menu items, such as cheeseburger, apple pie, Coke and French fries. Other buttons display the words, "I want," "Please," and "Help me."

Speech therapist Mira Shah asks Francisco, "Do you want something to eat or something to drink?"

Francisco sets the computer program in motion by tapping the button with his foot. The computer highlights words on the menu and says, in Spanish, "I want something to eat." The computer speaks in a deep male voice, which makes Francisco smile. His mother, who sits nearby, smiles with him.

Francisco is happy when he is in therapy with Mira, says his mother, Hermelinda. Before he came to Shriners, Francisco did not have a computer or a wheelchair. "We were always carrying him in our arms," said Hermelinda in Spanish.

Francisco is one of many Shriners patients who use computers to help them communicate as well as play. Children who can't hold a paintbrush or a doll can touch a computer screen to create works of art, or play with "virtual" Barbie dolls.

Shriners Hospital for Children is made up of 22 technologically advanced hospitals, delivering family-centered care and specializing in orthopaedic problems, severe burns or spinal cord injury rehabilitation. If you know a child Shriners Hospitals might be able to help, you can call toll-free 1-800-237-5055 in the United States or 1-800-361-7256 in Canada. Visit their Web site at [www.shrinershq.org](http://www.shrinershq.org). All care at Shriners Hospitals is given totally free of charge.

## Modern medicine. Traditional care.

## Announcing the opening of our new Warren Clinic.

We're excited to announce that we're seeing patients at our brand new Warren office beginning August 14, 2000. And we think you'll be pleased to see what we've done.

Our brand new offices were designed and built to serve you - our patients - with greater comfort and efficiency, and the latest in facilities and equipment. You'll find something else new, too: room to grow. Caylor-Nickel Clinic is committed to serve our neighbors in Warren and the surrounding communities with the foresight for tomorrow's growing needs.

Some things haven't changed, though. Dr. Bennett and Dr. Roby will continue to provide the expert, sensitive care and personal attention that you've come to expect. Both physicians offer complete family care, from pediatrics to geriatrics, including gynecological services, screenings, laboratory testing and preventive care. And because we're a part of Caylor-Nickel Clinic, the region's largest multi-specialty medical practice group, you won't have to seek out individual specialists.

Come and see us soon. You won't have any trouble finding us; we're just behind our original building off Huntington Avenue (State Road 5). We're confident you'll appreciate what's new - and what's not.
