A BIG TASTE OF SPRING THANK YOU!

A tremendous "Thank You" to our wonderful community of Warren and all of those who came out to support last Saturday evenings Fifth annual "A Taste of Spring" event. We had a wonderful crowd in attendance for our downtown park fundraising event that was filled with fun, food, drinks and prizes. We are very blessed to have so many generous business and people in our small community. It is YOU folks that truly make this event happen each year and with-out each one of you this event would not be a success.

We want to express our extreme gratitude to our 2014 Champagne Sponsors: Robert H. Berghoff, DDS, Citizens Telephone Co., East of Chicago Pizza Co., Edward Jones-Nicole Johnson, Family Life Care, Gebharts Floral Barn, Heritage Pointe, Kim's Katered Affiar, Shuttleworth Insurance and T.D. Wall Inc.

A heartfelt thank you to our vendors: Two-EE's winery of Roanoke and Kim's Katered Affiar of Warren. The samples for each of these vendors were amazing and we look forward to having them back next year.

Thanks again to all of those who participated in the fifth annual Warren Chamber "A Taste of Spring" event! We sincerely appreciate your commitment and dedication to our community. We are excited to see the proceeds be put to use in the future downtown park, which will be located east of the Post Office. THANK YOU to our small community who truly has the biggest hearts!

COUNCIL MINUTES

The Town Council of the Town of Warren met Monday, May 12, at Assembly Hall, Council Meeting Room, 131 N. Wayne Street, in accordance with rules of Council and applicable law.

Those present were: Town Council, Barb Trosper, Ethan Stivers, Julia Glessner, Tracey Brown; Clerk-Treasurer, Marilyn Morrison; Employees, Dennis Spitler, Lee Poulson. Others.

President Glessner called the

meeting to order at 5:30 pm and announced the opening of a Public Hearing as advertised concerning the closing of one half of an unimproved portion of Hendricks Street on the North side of Fifth Street as petitioned by Timothy and Michelle Woody. Asking for public input and receiving none, the Public Hearing was closed.

Ordinance 2014-3 providing for the closing of one half of an unimproved portion of Hendricks Street was submitted for consideration of adoption. Stivers moved, seconded by Trosper, to adopt. The motion was approved unanimously.

Minutes of the April 21st meeting of Council were approved as submitted.

It was determined, by consensus that the Town Council ride with the Chamber of Commerce and Historic Warren on a pedal float during the Salamonie Summer Festival Parade.

Morrison outlined a grant application being prepared by Historic Warren. The matching \$10,000 grant is a partnership grant which requires involvement by at least one other entity. Warren Area Chamber and the Town are being contacted to fulfill that requirement. The monies raised by the grant would be used to begin preliminary work on the Warren Chamber Green Space Park being planned next to the Post Office. Following discussion and by consensus, the Council directed that the Town be added as a partner.

Following discussion of the requirements to be certified as a WasteWater Treatment Plant Operator and noting that Dustin Fortney had completed the testing portion of the requirements, Ordinance 2014-4 was introduced which would increase Fortney's hourly rate by .50. Noted was that an additional .50 would be added when the hours

necessary for certification are completed. Glessner moved, seconded by Brown, that rules of Council be suspended to allow for consideration of an ordinance in the same meeting as introduced. The motion was approved unanimously. Brown moved, seconded by Trosper to adopt Ordinance 2014-14. The motion was approved unanimously.

Minutes of the Warren Area Chamber of Commerce April meeting were reviewed.

Morrison reported that the Fixed Asset Study was nearing completion and should be ready for initial review within the week.

Poulson reported that approximately twelve households could be impacted by a smoke study to be conducted on May 13th in the area of Main and Nancy Street Extended. The study is being done to locate an area of infiltration of stormwater into the sanitary sewer system and is being required by IDEM. Residents in the area have been notified. The recently purchased digger (auger) truck has been delivered with final cost being \$76,000. Placement of street lights along Bennett Drive should be completed, weather permitting by Wednesday, May 14th. Remaining Electric Department projects include placement of new lighting at Tower Park and in Salamonie Heights. Morrison submitted a quote in the amount of \$4500 from Keystone Consulting, suppliers of software for the computer billing system, for modules for radio read water and electric metering systems. Following discussion, Stivers moved, seconded by Trosper to approve the purchase. The motion was approved unanimously. A Special Meeting of Council was scheduled for May 20th at 1:00 pm to continue work with Poulson on the update of the ten year comprehensive plan.

Poulson submitted the April activity report for the Warren Fire Department and reported that tires were being replaced on the tanker.

Marshal Spitler submitted the April activity report and inquired as to whether the purchase of a police vehicle in 2015 was being considered. Council concurred. Glessner inquired as to the legality of parking facing the wrong way. Following discussion and the determination that public safety is at risk and that citation under State Statute would result in a \$100 fine, an ordinance is to be prepared making the action enforceable in Town Code. The fine would be \$25 which would double for each offense within a twelve month period. The ordinance was scheduled to be introduced at the June 9th Council meeting. Warning citations will be issued prior to issuance of fines.

Trosper and Morrison continue to work on policy and Code amendment regarding the use of Tower Park for organized tournaments without notification or scheduling. Council had previously determined the action necessary due to misuse of the diamonds and park facility.

General discussion was held.

There being no further business to discuss, the meeting was adjourned.

LANCASTER CEMETERY

The Lancaster Cemetery Association held its annual meeting on April 20 at the Salamonie Church of the Brethren. Board members in attendance were Steve Fulton, Jack Hacker, Rose Broyles, Diane Surfus and Steve Holmes. Absent were Jim Mossburg and Ruth Ann Berryhill.

Financial information for the last year was given by Treasurer Tom Harvey. The board was informed that Dawn Montgomery and Carol Hacker were continuing to work on the computer program and should have it completed sometime this year.

A work day was scheduled for April 12 at 9:00 to remove grave blankets and pick up limbs and trash in the cemetery.

Election of officers for the next year was held. Those are President and Secretary Steve Holmes, Vice President Jack Hacker, Treasurer Tom Harvey.

Costs of maintaining the cemetery continue to increase, so any contribution to the cemetery would be greatly appreciated. Being a not-for-profit the contribution is tax deductible. Any contributions should be sent to Tom Harvey, 5268 W 800 S, Warren, IN 46792.

Anyone wanting information about the cemetery or to acquire spaces should contact Steve Fulton 260-468-2761 or Steve Holmes 260-375-2766.

The cemetery is located at 5559 S 300 W.

BIKE TO WORK

National Bike to Work Day on May 16 is a centerpiece of a month long celebration of bicycling. Many groups and communities will be promoting cycling and its benefits through organized rides this Friday and throughout the summer season. The Indiana Department of Environmental Management (IDEM) wishes to recognize all employers, schools, organizations, municipalities and Hoosiers who embrace this alternate form of transportation.

Vehicles are the number one source of air pollution today in Indiana. Substituting a car trip with a bike ride or walking to a destination will reduce harmful tailpipe emissions right at the source.

IDEM Commissioner Thomas Easterly regularly walks to work from his home in downtown Indianapolis. He has a bicycle that he uses for exercise and recreation, as well as small errands. "Pedal power is good for air quality," said Easterly.

"The DNR supports Bike to Work Day and especially recognizes those in our agency who bike to work on a regular basis," said Indiana Department of Natural Resources (DNR) Director Cameron Clark. "This day acknowledges the environmental and physical health benefits bike riding provides to individuals and communities. We take pride in the role our agency has in the continued expansion of Indiana's local trail systems that help make biking to work safe and enjoyable."

Bicycle commuting reduces vehicle congestion and saves money on fuel and parking. If you already ride a bicycle for pleasure, consider using it for errands or even small trips to a store, friend's house, concert, or restaurant. Remember to observe traffic laws and practice safety tips when bicycling and walking. The public can often find useful information online from organizations such as the League of American Bicyclists' website at <http://bikeleague.org/ridesmart>. Beginners can often obtain advice, and find out about local events and cycling organizations, at a local bicycle shop. The Indiana Department of Transportation's Indiana State Roadway State Bicycle Suitability Map, online at http://www.in.gov/indot/files/LRP_BicycleSuitabilityMap.pdf,

informs cyclists about conditions on Indiana highways.

Other transportation alternatives, such as sharing rides and using public transportation, contribute to cleaner air. To find out about public transportation in your community, check online or contact your local government for information. Information for the Indianapolis metropolitan area is available through the Central Indiana Regional Transportation Authority website at <http://www.cirta.us/pages/home/default.aspx>.

Hoosiers can also take these simple steps to reduce emissions when driving. Avoid idling: Rather than waiting in drive-through lanes, park and go inside. When picking up family members, turn off the engine while waiting. Get regular engine tune-ups and inflate tires to the proper pressure. When it's time to replace your vehicle, choose an energy efficiency model. Information on popular makes is available through U.S. EPA's Smartway website at www.epa.gov/greenvehicles/you/smartway.htm.

To find more clean air tips, visit the IDEM website at www.in.gov/idem/airquality/2589.htm.

The event starts at 10 a.m. and will begin with an orientation at the Park Office.

Participants should dress for outdoor work and bring gardening gloves and are welcome to stay as long as they can.

Participants pulling mustard will be allowed into the park free of charge. Please sign in at gatehouse by 10 a.m.

Summer is almost here — which means it's officially vacation season. You may be looking forward to "getting away from it all," but, as you know, vacations actually require a fair amount of planning. And it might surprise you to learn that some of the efforts required for successful vacations can impart some valuable lessons in other areas of your life — such as investing.

Here are some vacation-related moves that you may want to transfer to the investment and financial arenas:

MORE PAGE 4

you're going on vacation for a week or so, you may need to take some steps to safeguard your home: stopping your mail and newspaper, putting on a timer to turn on lights, alerting your neighbors that you'll be out of town, and so on. But while it's important to secure your home today, you will also want to help ensure it will be there for your family in the future, should anything happen to you. That's why you'll want to maintain adequate life and disability insurance.

- Know your route. If you are driving to your vacation destination, you will want to plan your route beforehand, so that you can avoid time-consuming delays and detours. And to reach your financial goals, such as a comfortable retirement, you will also want to chart your course — by creating an investment strategy that is designed to help you work towards those goals based on your specific risk tolerance, investment preferences and time horizon.

- Keep enough gas in the tank. As you set out on a road trip, you need a full tank of gas in your car, and you'll have to keep refueling along the way. And to "go the distance" in pursuing your financial goals, you will need to have sufficient "fuel" in the form of investments with reasonable growth potential. Without a reasonable amount of growth-oriented vehicles in your portfolio, you could lose ground to inflation and potentially fall short of your objectives — so, over time, you may need to "refuel" by review-

ing your portfolio and rebalancing if necessary.

- Protect yourself from getting burned. If your vacation plans include a stay at the beach, you'll need to protect yourself and your family from the hot sun — so make sure you're all using sunscreen. When you invest, you can also get "burned" if you are not careful — especially if you are inclined to chase after "hot" investments. By the time you hear about these so-called sizzlers, they may already be cooling off, and, even more importantly, they just might not be appropriate for your goals and risk tolerance. Instead of becoming a "heat-seeking" investor, focus your efforts on building a diversified array of quality investments appropriate for your needs. If you only own one type of financial asset, and a downturn hits that asset class, your portfolio could take a big hit. But by diversifying your holdings, you can help reduce the effects of volatility. Keep in mind, though, that diversification, by itself, can't guarantee profits or protect against loss.

As we've seen, some of the same principles that apply to creating a vacation may also be applicable to your investing habits. So, put these principles to work to enjoy a pleasant vacation — and a potentially rewarding investment experience.

STOP SUMMER SLIDE: KEEP KIDS READING

By Max Elliot Anderson
So, you'll be out of school in a few more days. Who wants to think about any schoolwork during vacation, right? Now is a time to make plans for how the rest of your summer might go. But forget about reading this summer? Maybe I can help change

your mind.

Guys, your friends will probably say something like, "Hey, why don't you hang out at my house all day? We can play that awesome new video game I told you about till our thumbs fall off." And girls, your friends might invite you to go shopping, to the beach, or just to spend the day together. There's nothing wrong with doing any of these things, but I'd like to encourage you to consider one other activity this summer.

Summer reading loss is real, and it accounts for dramatic reductions in the ground you've gained throughout the previous school year. Summer reading can happen anywhere, and it's a good idea to read about new topics and explore new interests. It's also a good idea, according to The Campaign for Early-Grade Reading, to set a reading routine — and stick to it — while also allowing flexibility around different schedules or special events.

Did you know that reading causes certain connections in your brain that don't happen any other way? It's true. When you

read, your imagination kicks into high gear. In your mind, you can hear the sounds, smell the smells, and feel the heat of the desert or cold of winter. You can taste, or even feel and see pictures of places without ever leaving your reading couch or chair.

I come to writing books from a lifetime of film and video production. I know, first hand, how the right emotional triggers are used in order to achieve results the filmmakers are after. When writing, I play music that fits the scene. This provides a picture in my head. If a book deals with the heat of summer, I like to write during summer months. When I can't do that, I've been known to crank the heat up in my house to reach the proper conditions. Winter stories are handled the same way. You'd be amazed at the feelings that come when a thermostat is turned off while it's freezing outside. Sometimes, it's nearly impossible to get my fingers to move across the keyboard.
