## REOPENED TUESDAY

On Friday afternoon, a field representative of Indiana Department of Revenue shut down Bil's Foods, 208 N. Jefferson St., Hartford City, and Country Corner, 7126 N. State Road 3, Hartford City. They have since taken care of the situation and reopened at noon Tuesday.

Shafer, who is acting on behalf of the new owner, pointed out that the community needs to know the truth about the matter. He indicated that there are rumors floating around Blackford County and the surrounding area that Bil's Foods and Country Corner were closed by Blackford County Health Department because of health code violations.

"People are saying we were closed due to violations," noted Shafer. "That is simply not the case."

Linda Briles, registered environmental health specialist with Blackford County Health Department, concurred with Shafer's statement. She told News Times on Sunday afternoon that the local health department did not shut down Bil's Foods and Country Corner.

"We have a good working relationship with both of those establishments," remarked Briles. "They have not had any serious infractions."

According to Briles, in a situation where businesses have been closed and people are hearing that it is because of health code violations then it is important that the public know that the health department did not shut down the grocery store and restaurant.

Shafer shared that it is important to him that the community

knows the real reason because he believes when people falsely hear a business is closed due to health code violations then they start thinking all kinds of bad things about the establishment.

## KUDOS, KICKS & KARATS

### THANK YOU

We, at the Bargain Basement, want to thank the Van Buren and Andrews Library for the book donations.

We have had some shoppers ask "Where do the Bargain Basement proceeds go?" They are used to help pay the expenses to keep the Civic Center going. Keeping an older building open to the public for all kinds of activities is expensive.

The entire community benefits from the Civic Center - T-Ball, Basketball, sledding, Food Pantry, Reunions, Organizations, dinners for fund raising, museum, Red Cross blood drives, wedding receptions, etc. etc.

So please bring in your donations, we volunteers process them, you shop, the community benefits and you help keep our Civic Center going.

We especially need kids clothes and plus size women's clothes. When you are switching your wardrobe over to winter please bring in anything that you no longer wear.

Remember your donations are still tax exempt. Please bring your donations in when we are open. Donations left outside are subject to weather conditions. We are not at the Bargain Basement every day, so they may set outside for a few days and may not be useable when we find them.

Thank you for all your past and future support!

### \$2,000 NATIONAL PARKINSON FOUNDATION GOAL REACHED

Dear Donors, The Bob and Carol Priddy donation that came in last week of September made it possible for us to reach our \$2,000.00 National Parkinson Goal in memory of Roger M. Van Winkle.

Thank you all that gave in Roger's memory. The Van Winkle family and Foundation greatly appreciate your gifts.

businesses and tree participants until Friday, November 1st. We invite you, your business, family, club, or church group to decorate a tree and display it in the downtown area. There will be three categories of tree judging: 1) adult organization/business; 2) youth organization and; 3) individual or family. Each winner will receive \$50 in Warren Chamber bucks. Visitors, including you, will be able to view the trees and then return to the town annex and vote for best tree. Monetary donations raised from the event will be given to the Warren Ministerial Association. This event coincides with the opening night of "Narnia" at the Pulse Opera House to create an evening full of holiday spirit.

We hope you join in by promptly contacting Danielle Shaw at PNC Bank or by e-mailing her at Danielle.shaw@pnc.com by November 1st. Let her know what size of tree you will be decorating or if it will be an existing tree downtown and the location of that tree. ### SHARED PROGRAM

Love INC is partnering with the Salvation Army to help families have more options this Christmas!

How will this years program be different than in years past?

This year, instead of two groups doing an adopt-a-family program where families can register to get gifts for their children for

free, Love INC has decided to work closely with the Salvation Army to offer not only an adopt-a-family program, but also a low cost Christmas toy store! Every family will have the choice of registering to be adopted or registering to shop in the Love INC Christmas Toy Store. Churches, businesses, and social clubs that have traditionally worked with Love INC will still have the option of participating in an adopt-a-family program by partnering with the Salvation Army. Groups will also be needed to support Love INC's toy store.

Why change a program that seems to run great?

We are conscious of not only the material needs of our neighbors, but also their spiritual and emotional needs. By continuing to provide Christmas gift-giving without any participation from them, we force them to be on the receiving end with nothing to give in return. This experience for some families can be humiliating. We are giving the ownership of Christmas gift-giving back to the families we serve. We are giving them an active role in the decision making of what they want to give their children for Christmas. We are bringing the dignity back. They can leave the Christmas Toy Store knowing that they provided for their family. Every family will have the option to choose between being adopted or participating in the Christmas Toy Store. For more information or to learn more about meeting the needs of those struggling, please consider reading Toxic Charity by Robert D. Lupton

How can my church participate?

We've had churches participate in our Christmas program in several ways: Some have donated to Love INC, some have received children's names and then adopted them out as a church, and others have adopted families and let the families pick up their gifts on Love INC's distribution day. The great news is that your church can continue to participate in whichever way you choose! The Salvation Army will coordinate the efforts of any groups that wish to adopt families, or receive family names to adopt. They may also need an increase in donations due to taking on more families. Love INC will also need church groups to step up, donate to the store, and volunteer their time before and during store hours.

How will the store work?

As in the past, families will have to register ahead of time to participate. Both the Salvation Army and Love INC will present both

options to families, and let them choose which option is right for them. Families who choose to shop in the store will be asked to contribute \$5 per child and will be able to choose a set amount of toys per child from the store. There will also be a wrapping station where families can wrap their gifts before leaving the store.

What will Love INC do with the proceeds from the store?

We don't anticipate the store generating more money than we spend setting up. If it does, all proceeds will go right back into the Christmas Toy Store, purchasing wrapping paper, tape, toys, and decorations!

How can I help?

The choice is yours! If you would like to support the Salvation Army by donating toys or adopting a child please contact them at 260-356-3485. If you

## BREAST CANCER MONTH

Breast cancer is the most frequently diagnosed cancer among females in Indiana, excluding skin cancers, with approximately 4,400 cases in the state each year. October is Breast Cancer Awareness Month and State health officials are encouraging Hoosier women to get screened.

"Regular screenings are important to detecting breast cancer," said State Health Commissioner William VanNess, M.D. "Beginning at age 50, women should have a mammogram every year or two. Talk to your doctor to determine your risks and the benefit of screenings."

There are several risk factors that contribute to breast cancer.

Women have a much greater risk of developing breast cancer than do males, and that risk increases with age. Additional risk factors include:

- Genetics
- People who have had two or more first degree relatives who have been diagnosed with breast cancer have an increased risk. Additionally, breast cancer risk increases if someone has a family member who carries the BRCA 1 or 2 genes, which account for 5-10 percent of breast cancer cases.

- Race
- In Indiana, during 2007-2011, the breast cancer incidence rates for African American and white women were similar, but the mortality rate for African American women was 39 percent higher than for whites. This increased risk can partially be attributed to African American women being diagnosed with more aggressive forms of breast cancer or at later stages.

- Estrogen
- Women who started menstruation before age 12 or menopause after age 55 might be at increased risk as a result of a higher lifetime exposure to estrogen.

- Pregnancy and Breastfeeding History

There are studies that show that women who have not had children, had their first child after age 30 or have not breastfed might have an increased risk of developing breast cancer. According to the American Cancer Society, some research indicates that for each year a mother breastfeeds her child, her relative risk for developing breast cancer is reduced by 4.3 percent.

- Hormone Replacement Therapy (HRT)

Using HRT can increase a woman's risk of developing and dying from breast cancer. This risk can be increased after just two years of using HRT.

- Alcohol
- Drinking alcohol has been linked to an increased risk of breast cancer and the risk increases with every drink consumed per day.

- Overweight and Obesity
- Being overweight, especially post menopause, can increase your risk of developing breast cancer. The more body fat a woman has, the higher her estrogen levels typically are, increasing her risk of developing breast cancer.

The early stages of breast cancer typically show no symptoms. However, as the cancer progresses, some symptoms may be noticed. These can include:

- A lump or thickened breast tissue
- Changes in breast size or shape
- Changes in the texture of the skin of the breast or nipple, including dimpling or puckering
- Nipple discharge, especially if the discharge is bloody

Contact your healthcare provider immediately if you have any of these symptoms.

"Early detection of breast cancer is critical because it gives a woman her best chance at beating it," said Dr. VanNess. "The five-year survival rate for localized breast cancer, which is simply cancer that has not spread to lymph nodes or other locations outside the breast, is 98 percent."

The Indiana State Department of Health Indiana Breast and Cervical Cancer Program (IN-BCCP) provides access to breast and cervical cancer screenings, diagnostic testing and treatment for underserved and underinsured women. Eligibility for the program is determined by age, income and family size. For more information on the IN-BCCP and to check eligibility, call 855-435-7178 or visit [www.in.gov/isdh/24967.htm](http://www.in.gov/isdh/24967.htm).

To learn more about breast cancer, including information on signs and symptoms, benefits of early detection and behaviors that can help decrease risk, please refer to the Indiana Cancer Facts and Figures 2012 report, a comprehensive report on the burden of cancer in Indiana, by visiting [www.indianacancer.org](http://www.indianacancer.org).

Organizations interested in working with others to reduce the burden of cancer in Indiana should consider participating in the Indiana Cancer Consortium (ICC). The ICC is a statewide network of partnerships whose mission is to reduce the cancer burden in Indiana through the development, implementation and evaluation of a comprehensive plan that address cancer across the continuum from prevention through palliation. Participation in the ICC is open to all organizations and individuals interested in cancer prevention, early detection, treatment, quality of life, data collection and advocacy regarding cancer-related issues. To become a member of the ICC and find additional information about cancer prevention and control in Indiana, visit the ICC's website at [www.indianacancer.org](http://www.indianacancer.org)

## HOMEMAKERS TRIP

The Huntington County Extension Homemakers coordinated a fall trip to historic Marshall, Michigan on Thursday, October 10, 2013. Twenty nine adults participated in the tour.

The day in Marshall began at the Michael W. Schragg Postal Museum. The museum, housed in the basement of the Marshall Post Office, offers two centuries of postal memorabilia including a 1890 post office store front, a 1931 Model A Mail Truck and assorted items related to postal delivery in the U.S. and several other countries. It is the largest collection outside of the Smithsonian and the only museum currently being operating and named for a living person. The tour of the museum was led by Mr. Schragg himself.

A guided driving tour of Marshall highlighted some architecturally unique homes, including a variety of Greek Revival, Colonial Revival, Romanesque and

Italianate homes.

At noon, a buffet lunch was enjoyed at the historic Schuler's Restaurant, established in 1909. After lunch, a stop at the GAR Civil War Hall built in 1902 for the Grand Army of the Republic by Marshall Civil War Veterans highlighted artifacts from all American wars as well as the local firefighters.

The tourists visited the historic Capitol Hill School built in 1860, located near the Calhoun County Fairgrounds. They saw what a one room school house was like in 1860. The building served the community for over 100 years and houses a children's museum of toys, games, marionettes and a puppet stage.

The Honolulu House, built in 1860 as a private residence by Judge Abner Pratt upon his return from the Hawaiian Islands, was visited. The home featured detailed ornately painted ceilings and woodwork, trimmed in precious metals and decorative faux painting.

The day concluded at the Governor's Mansion, built in 1839 anticipating that Marshall would become the state Capital. The Greek revival dwelling never housed a governor, but the man who built it did serve as Michigan's third governor. There, apple pan dowdy and apple cider were enjoyed for dessert.

The group traveled via motor coach and were hosted by Sheryl Godby and S & S Travel of Kendallville, IN.

### MOVIE DAY

Sheets Wildlife Museum and Learning Center will be having a movie day on Saturday, October 19th, 2013. The movie will be free and if you would like a tour of the museum, the price would be \$1.00. Movie will start at 10:30 AM and will last approximately 40 minutes.

The movie we will be showing is Gorillas from the heart of darkness. Romain Baertsoen, a Belgian diplomat, arrived in Rwanda in 1966 and started to film one of the country's most closely guarded secrets - the gorillas of the Viruga Mountains. Baertsoen has to learn how to behave with these enormous animals. Baertsoen learned through trial and error; being charged by a 400 pound Silverback was not something he wanted to repeat. You will be able to witness young gorillas playing, resting and feeding. In one extraordinary incident, you will see gorillas trying to help a dog that is caught in a trap by using sign language. Baertsoen also filmed spectacular footage of one of the Congo's erupting volcanoes. The cooled lava provides a fertile land, and a thrilling view of fantastic flora and fauna.

There will be an easy quiz with the top three youth receiving a gift certificate to be used in the museum gift shop.

Seating is limited so it is suggested that you call 356-9453 to reserve a seat.
