WANTS TO WALK HOME

Gerald Moreland, Minister of the Warren Church of Christ has challenged the church to have 200 in worship service on Sunday, October 31st to celebrate the first anniversary of their decision to call him to be their new minister.

He promises to walk home from church on that day, rain or shine, cold or hot. The distance from the church house to his house in Markle, In. is 12.7 miles. He has measured the distance going home different directions and that's the shortest he has come up with.

Why do something like this? Because he first talked alone with the Lord about it for the first day he arrived back in January of this year that if 200 showed up he would walk home, but that didn't happen. He then challenged the congregation openly with that at-

tendance figure at their recent Revival meeting held in September and it didn't happen then either. So, he thought it would be fun to challenge them with the anniversary date of his calling to come be their minister, which took place one year ago on October 26.

He did a similar thing with the Markle Church of Christ in 1988 and walked from the Markle church house to the Huntington Court House on May 15 of that year. It was a distance of 10 miles and was 93 degrees outside. This trip could be a cool one at this time of year.

The church has been growing and it's just a fun way to challenge everyone to come out and bring friends and family to worship the Lord.

Maybe you'll see him leave church on that morning and walk home along N. Wayne (200 north) to 124 to State Route 3 to Markle. Worship time is 9:30 at 3rd and N. Wayne Streets in Warren. The public is invited to attend and help make Gerald walk.

OCTOBER IS LIVER AWARENESS MONTH

LIVER DISEASE IS A LITTLE-KNOWN RISK OF OBESITY

Experts say that people watching their weight should also be watching their liver.

Most people know that losing weight lowers the risk of heart disease and type 2 diabetes. The risk of a lesser-known, but highly important obesity-related disorder, can also be lowered through weight loss.

It is known as nonalcoholic fatty liver disease (NAFLD). A surprising 25 percent of American adults have it. It is the most common liver problem in the U.S.

The disorder is marked by elevated liver enzymes and fatty deposits in the liver in the absence of excessive alcohol consumption. About 15 to 20 percent of these people ultimately develop inflammation and scarring of the liver. Advanced scarring (cirrhosis) is irreversible, according to Johns Hopkins Medical Centers.

A body mass index greater than 30 is strongly associated with NAFLD. Overweight people who tend to store fat around the abdomen, rather than around the hips, are at greater risk. Type 2 diabetes also increases the risk of NAFLD.

A diagnosis of NAFLD is generally easy. Doctors check the blood during routine blood work for elevated liver enzymes, which may be the first indication.

The American Gastroenterological Association (AGA) recommends gradual weight loss of one to two pounds per week through calorie restriction and increased exercise. A loss of about 10 percent of body weight has proved beneficial in lowering elevated liver enzymes and fatty deposits.

of Warren, Indiana, that on the 25th day of October, 2005, in the Council meeting room in the Town's Assembly Hall located at 131 Wayne Street in Warren, Indiana; starting at 6:40 p.m. there will be a public hearing on the matter of whether to adopt, certain proposed changes in the rates and charges of the Town's water utility.

Increases in the presently existing and effective rates are being proposed to begin to address a situation which the Town Council believes exists, namely that the existing rates and charges are too low and are insufficient for the Town to properly operate and maintain its water works utility.

At a duly called and held Town Council meeting on October 11, 2004, Ordinance No. 2004 was introduced and is presently under consideration. That Ordinance, exclusive of the whereas clauses, recitals of adoption, and proposed signature block, reads as follows:

"Now, therefore, be it ordained by the Town Council of the Town of Warren, Indiana, in meeting duly assembled, that the presently effective schedule of this Town's waterworks' rates and charges to its water customers as set out in § 52.50 of the Warren Code of Ordinances ("Code") should be, and that Code § is hereby, deleted and replaced by the following:

"§ 52.50 Service Rates and Charges

Rates and charges for the use of and service rendered by the waterworks system of the Town, based upon water availability and/or the receipt of water supplied by that waterworks shall be as follows:

(A) Metered rates.
Metered Rates Per Monthly Billing Period & Per 1,000 Gallons

First 3,333 \$4.68, Next 10,000 \$3.91, Next 10,000 \$2.75, Over 23,333 \$1.94.

(B) Minimum charge. Each user shall pay a minimum charge in accordance with the following applicable size of meter installed for which the user will be entitled to the appropriate quantity of water computed in accordance with the above schedule of rates.

Size of Meter and Minimum Monthly Rate: 5/8 to 3/4-inch

\$15.56; 1-inch \$23.35; 2-inch \$77.81; 3-inch \$181.55; 4-inch \$559.92.

(C) Hydrants – Each municipal/private hydrant \$418.29 per annum

(D) Sprinkler systems – Connection Size – Per Annum

2-inch \$85.80; 3-inch \$157.30; 4-inch \$286.00; 6-inch \$643.50; 8-inch \$1,144.00

(E) The rates and charges fixed above shall apply to individual customers; they shall not be construed to permit multiple customers being served through one meter, except as expressly authorized in advance in writing by the Town Council."

Be it further ordained that all ordinances, parts of ordinances, and Code provisions in conflict herewith are repealed; provided, however, that the existing schedule of water rates and changes as set out in that § 52.50 shall remain in full force and effect until the first monthly billing period commencing following the adoption of this Ordinance."

At that public hearing which will address considerations related to the proposed adoption of that Ordinance, all persons whose interests are affected thereby are urged to attend and state their objections, if any.

FOSSE AT HONEYWELL

WABASH, Ind. - Broadway hit Fosse will be presented at the Honeywell Center at 7:30 p.m. Friday, Nov. 19. The Tony award-winning musical highlights the career of choreographer Bob Fosse through song and modern dance. Fosse

makes an appearance in Wabash as part of the Wabash Valley Music Association's 2004-2005 series.

Fosse presents an energetic troupe of twenty-four Broadway dancers performing classic numbers like "Steam Heat," "Big Spender," "Bye Bye Blackbird," "Dancin' Man," and "Sing, Sing, Sing." Also included in the production are rarely seen dance and musical numbers from Fosse's earliest works, with many numbers that have never before been performed on stage. An eight-member orchestra provides accompaniment with each dance number.

Bob Fosse's recognizable sleek style revolutionized musical theater with Broadway hits Sweet Charity, Chicago, Dancin', and films Cabaret and All That Jazz. Throughout his 40-year Broadway career, Fosse collected nine Tony Awards, three Emmy Awards, and an Oscar.

Fosse protegee Ann Reinking and associate Debra McWaters direct and choreograph Fosse. Reinking's resume includes performances in musicals Dancin', and Goodtime Charley. Film credits include Annie and Micki and Maude. McWaters has been involved with productions of Chicago, Applause, and The Look of Love.

Tickets for Fosse are available at the Honeywell Center Box Office or by calling 260-563-1102 or 800-626-6345. Ticket prices are \$40 for adults and \$20 for youth through high school.

STORY TIME

Twenty-four children came to the Van Buren Public Library on Friday Oct. 15th, 2004 to honor our men and women in the military. The children signed in and were able to color a picture of an American Flag. Not only could they color the picture but also they could decorate around the flag and on the back. Some children put a picture of themselves or their handprint on the back along with their name. We had all kinds of pictures to color and decorate, and that is just what they did. We have several pictures to send to our soldiers.

Karen read the book "Armed Forces" by John Hamilton. This book is part of the "War on Terrorism" series we have in our Children's Department of the library. We have many other armed forces books the children can check out and read. The children shared some names of people who they know that our serving in our military. TOOTH TIPS

Tooth Wear What Causes It?

There are many components associated with tooth wear. Many Patients have the idea that they inherited "soft" teeth from their mother or father or they have all this wear or destruction to their teeth because they clench or grind their teeth.

A recent article in a dental journal has¹ brought new theories to the causes of tooth wear. The central focus is that acid erosion is the primary cause of occlusal wear and gum line abrasion. Acid erosion is from gastro esophageal reflux disease or better known as Acid Reflux Disease it can be brought on by many factors but one primary reason is over our obsessive consumption of sode pop and the acid and sugar it contains.

The acid erosion wears your natural teeth and also can wear on porcelain crowns and denture teeth. Many people have times when they clench or grind their teeth with little wear, but when acid is put into the mix the patient's saliva can't neutralize the acid. Therefore, demineralization or wear starts to occur. With time the more soda pop consumption and other factors, increase acid reflux, which has more damaging effects. If you have any questions about wear on your teeth you should contact your dentist.

HELP FOR THE FAMILY CAREGIVER

Your wife has Alzheimer's disease and cannot be left alone, but you need to visit your elderly mother in Muncie for the day. No one is available to help. What do you do?

Your husband has been diagnosed with Parkinson's disease and you want to learn everything you can as quickly as you can. Where do you go?

Your mother would be safer in her home and you would have more peace of mind if she had an emergency call system. She cannot afford it and neither can you. Who will help?

In each case, the staff of the Family Caregiver Program, administered by Aging and In-Home Services of Northeast Indiana Inc., stands ready to lend a hand to caregivers in Adams, Allen, DeKalb, Huntington, LaGrange, Noble, Steuben, Wells and Whitley Counties.

Funded primarily by the federal government, the Family Caregiver Program was established on a nationwide basis by the Older Americans Act Amendments of 2000 to give family caregivers access to the resources and services that make their jobs a little easier. It is, essentially, a clearinghouse that connects people caring for family members older than 60 with information and community assistance, like peer support, adult day care, and home health assistance.

The program also offers a respite care fund to provide temporary relief for family caregivers who must take a break to tend to their own medical needs or family issues. Finally, it offers supplemental services, on a limited basis, to complement the care provided by caregivers. A supplemental service might be legal assistance in drawing up essential documents, setting up family

counseling, purchasing a shower chair, or paying for an emergency response system.

The Family Caregiver legislation was enacted largely as a result of the Census of 2000, which showed just how rapidly the American population is aging and what its needs are. Family caregivers, traditionally, have been the mainstay in long-term care for older Americans. Research indicates that only five percent of non-institutionalized people needing assistance rely exclusively on paid services. The rest depend on family and friends to some degree.

The experts on services for the elderly with the Family Caregiver Program are in tune with the needs of family caregivers. Whether the need is big or small, they can provide a wealth of assistance and support to make life just a little easier for family caregivers in northeastern Indiana.

Provided by the Family Caregiver Program of Aging and In-Home Services of Northeast Indiana, Inc. Contact 1-800-552-3662 or visit www.agingihs.org for more information.

All services are provided without regard to race, age, color, religion, sex, disability, national origin or ancestry.

est of kids. They can follow the bouncing stars to 20 different topics, with graphics to get help with their homework, learn about different careers, explore outer space, create an art project, play fun and educational games, learn how government works and much more.

If your child wants to be president one day, click on "Government" and go to "Take Your Kids to Vote." You'll find activities for future voters of all ages. Whether your children walk, take the bus or ride their bikes to school, they need to think safety first. Use Kids.gov to help teach traffic rules. There's a quiz to help young animal lovers find out if they're ready to become owners. And after a long week of school, your kids want fun things to do. Keep the TV turned off and browse the arts, the music or fun section of Kids.gov for games, stories, puzzles, and even animated short movies.
